The Finest Glove in the --- World. - --

This is the verdict of the glove experts on the genuine "Monarch" Glove. There are other fine gloves, but no pique sewn, glace kid can quite approach the "Monarch" in exquisite finish and strength of skin. No glove has yet been cut that will as correctly fit the aristocratic American hand as the "Monarch." This cut is the result of years of study and much money

spent in experiments. The result is a perfect fitting glove. And perfection in fit could only be obtained by using the most expensive real kid skins; skins that have the utmost pliability and a surface as smooth and delicate as satin. Such skins are expensive, from the act that the great glove makers of the world anxiously seek them and bid igh for them when found. At this moment in the great factories where he "Monarch" is made, there are more of such skins being made into gloves, in process of dressing, than in any other three factories in the world. We re sole Salt Lake agents for the "Monarch" Gloves and sell them at—

\$2.00 a Pair.
